

REMARKS:

In view of the fact that the claims have been indicated to contain allowable subject matter, this amendment is submitted in an earnest effort to advance the case to issue without delay.

1. The priority claim acknowledgment in paragraph 12 of PTOL 326 is appreciated.

2. The first sentence of the specification has been updated to include the patent number of the parent application as the Examiner has required.

3. The objection to claim 6 has been corrected. The Examiner has correctly indicated the changes which were necessary and these have been made.

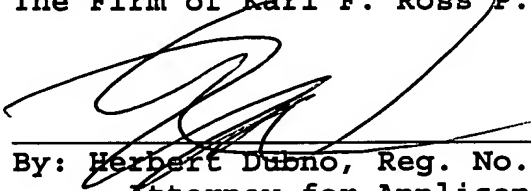

4. The claims in the case have been rejected only under 35 USC 112, second paragraph, and in each case the claims have been modified to eliminate the informality. In both claims 1 and 5, for example, it is now clear that the furniture is not part of the claimed invention but that the device is adapted to be mounted on the furniture.

The container is adapted to be fastened to a fixed or sliding portion of the article of furniture.

In claim 2 it is the same guide as previously recited and in claim 3 it is the same container as previously recited, and in claim 4 it is the same groove and container as previously recited. The problem with antecedent basis in claim 5 has also been removed.

5. Since all of the claims have been indicated to contain allowable subject matter, this case is deemed to be allowable and an early Notice to that effect is earnestly solicited.

Respectfully submitted,
The Firm of Karl F. Ross P.C.
